

Mercedes Service Centre (4300 M2)

The New Mercedes Benz Service center is larger and ergonomically designed to provide better and quicker service to customers. The building includes a service reception measuring 600 Sq. mtrs; four active receiving areas, Six Express service areas, A Mercedes Benz Boutique & Accessories area & a large Mercedes Café measuring 150 Sq. mtrs.

The New Service center can handle more cars in a day than its current capacity is 45 vehicles per day.

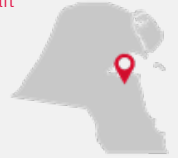

The designer of the Project approved Shurjoint Groove fittings for Fire Protection system because of the overall technical and quality related advantages.
