

Taipei 101

Taipei 101 is a landmark skyscraper located in Xinyi District, Taipei, Taiwan (ROC). The building contains 101 floors above ground and 5 floors underground, and was the tallest completed skyscraper in the world from 2004-2010.

After a sales demonstration, the contractor and project manager agreed to utilize Shurjoint's 800 series Ductile Iron Threaded Fittings for the fire protection system, as the range of sizes is comprehensive from ½" to 2½", and all the fittings are 100% air tested, UL listed & FM approved, and rated for 300 psi (CWP).or costs.
