

Dubai International Airport Terminal 3 Concourse 2

New Emirates Terminal Building is an 8000 sq Meter, 7 storey (4 underground) Car Park, with an Arrivals Floor, a Departures Floor, a complete floor dedicated to Business & First Class lounges and a hotel which features a wide range of dining options as well as a health club including a gym, jacuzzi and swimming pool.

The addition of the 3rd Terminal increases the overall passenger handling capacity of Dubai International by 50% to over 65 million passengers every year. Stringent Consultant requirements of utilizing ALL UL FM Approved products for their Fire Protection network facilitated the approvals of Shurjoint Galvanized Grooved Fittings a mandatory choice over other products.
